

Polybius ICO Escrow Arrangement

Escrow is a strong insurance that funds attracted via an ICO are correctly used according to the initial agreements. For this purpose, Polybius project will accept BTC via escrow.

Escrow Agents

Polybius has selected the following people as the escrow agents for the ICO:

George Basiladze
Founder of Cryptopay Limited

Eugene Shumilov
Founder and CEO of Emercoin

Storage of ICO funds

BTC will be stored in a Coinbase 2-of-3 multisig wallet.

Address: 13M2aBStru4LDoUGtqKbpvo3hdF4B8Rg8F

Each escrow agent will hold one of the two necessary keys for signing transactions and the remaining key will stay with the founders of Polybius. In order to successfully make transactions, two keys are required.

Release of ICO funds

After the ICO has ended at 12:00 PM UTC, July 5, 2017, the attracted funds will be released if the total worth of collected donations is at least USD 1 500 000.

If the total worth of donations will be less than USD 1 500 000, the funds will be returned.

For calculation purposes, all non-USD currencies will be converted into USD at the relevant exchange rates at the moment of their collection.
